Corporate Profile

Welcome To Bodotex

Right from the heart of Denmark.

Bodotex is a Trade and Production company with origins in the beautiful Vejle River valley in Denmark.

Established in 1953, with roots in the textile industry, Bodotex has developed into a cluster of specialist business units that focus on chemicals and composites through its companies in Denmark and Southern Africa.

Position in both the Northern and Southern Hemisphere , Bodotex is servicing markets from Iceland to Cape Town.

Bodotex South Africa was established in 2014 for the purposes of fulfilling our mission of transferring our world class technology and skills to the fast developing composite demand in Southern Africa.

Bodotex Identifies the need for continuous development and is core activity for Bodotex, involving testing of product properties in close contact with customers, manufacturers and suppliers.

Bodotex is an innovative and service minded player in the Global Composite market.

Bodotex is proudly AAA Rated for credit rating.

Our mission and Purpose: To transfer our industry leading technology and world class skill to the market.

Our Vision: To lead the market push in composite and pipe rehabilitation technology and material supply.

Bodotex offers an exciting pallet of products and solutions ranging from Epoxy, vacuum infusion consumables and CIPP Product technology.

World Class Danish Composite Materials by Bodotex!

Bodotex Composites is a substantial manufacturing supplier to the global composite industry.

Bodotex Composites is active daily as a technology support partner in composite processes.

Bodotex Composites services the Southern African Market from its base in the Eastern Cape, South Africa and Denmark ,Scandinavia

- ✓ Cure in Place Pipe Solutions - GRP & UV Curing
- ✓ BODOPOX -Epoxy Based Resin Technology
- ✓ Vacuum Infusion Technology
- ✓ Pump Technology | Service
- ✓ Composite Structural & Process Materials
- ✓ PVC & Balsa Core
- ✓ Carbon Fiber solutions
- ✓ CCS – Composite Consulting Services

Bodopox - Epoxy Resin Systems Development and production

Bodotex has since 2004 developed its own original design epoxy resin systems for all types of industries.

From Basic Ambient curing Hand layup resins to High TG Mould Infusion Resins Bodotex offers a wide range of Original Content and designed Epoxy Resin systems under the Brands BODOPOX & BODOCURE

BODOPOX and BODOCURE designs are owned and developed in our labs and are used in a wide variety of applications in the EMEA regions.

BODOPOX - Epoxy Resin Systems together with our extensive range of BODOCURE curing range are applicable typically into the following applications or configurations:

- ✓ Pipeline Rehabilitation Epoxy Systems
- ✓ Vacuum Infusion Resin Systems
- ✓ Hand layup Resin Systems
- ✓ Tooling Resin Systems High TG
- ✓ Drinking water Epoxy Systems
- ✓ Extrusion Epoxies Systems
- ✓ Filament Winding Epoxies Systems
- ✓ UV Absorbing Epoxy Systems
- ✓ Bisphenol Free Epoxy Systems
- ✓ Stone Impregnation System
- ✓ Flooring Epoxies

BODOPOX Resins and curing agents are used in Wind Turbine Blade Moulding, Marine applications for Tooling and Infusion, Defence applications and Pipe Repair technology as well as a wide industrial application of our Epoxy Products

Next to the standard systems, Bodotex Composites engineers customer specific systems so please ask, we can match a wide variety of applications.

Vacuum Infusion Technology Development and Production

Bodotex has since 2004 developed and produced its own in house technology range for Vacuum infusion.

As a market leader in the global supply of consumables used in vacuum infusion, Bodotex offers a wide and complete solution to the global Market Place

- ✓ Vacuum Bagging Films
- ✓ Sealant Tapes
- ✓ Spiral Flex
- ✓ Inlet and Vacuum Pipes
- ✓ Inlet Profiles and Blocks
- ✓ Flow Mesh
- ✓ Pipes
- ✓ Fittings
- ✓ Spray Adhesives
- ✓ Core Material
- ✓ Peel Ply
- ✓ Pumps - dosing and Mixing

Bodotex Vacuum Solutions are used globally and technically tested and proven by some of the largest wind energy producers on the planet.

The logo for Bodotex Composites ApS features the word "Bodotex" in a bold, dark blue sans-serif font. A vertical green line is positioned to the left of the text. Below "Bodotex", the words "Composites ApS" are written in a smaller, grey sans-serif font.
