LIGHT BOXES FOR EXHIBITIONS AND EVENTS.

Manufactured to your specification

With long distance LED modules from System Standex it is now possible to create side illuminated light boxes in extra large format. Where the shortest side can be up to 4 Meter long. This creates a unique opportunity to create awareness of your stand or shop.

The light boxes are available to your specific sizes both single and double sided. They are used in many formats – free standing, columns or designed into the stand structure.

This makes the light boxes easy to integrate into your design and with the printed fabric creates a great finished product.

Large format light boxes have LED modules fitted to the profiles which makes the frame work easy to build, easy to dismantle and easy to transport.

SIDE ILLUMINATION

With long distance LED modules

The LED modules are mounted on the profiles for ease of assembly and transport.

The LED modules have a light distribution of 7x25 degrees. Because of this, they are especially suitable for large light boxes. They can be used for single and double sided light boxes with a profile depth of 85, 120 and 150 mm.

The LED modules are available as
9 x 2.2W and 4 x 2.2W, 24V

GRAPHICS FOR PRINT

- 40 mm bleed on each side and cropmarks.
- Minimum 100 dpi in 1:1. in PDF format
- Files must be sent in CMYK colours
- Logos will be accepted as AI, EPS and PDF in min. 300 dpi.
- Fonts need to be attached or outlined.

Easy mounting of banners

A PVC profile is sewn directly onto the fabric banner. To mount the banner, simply press the profile into the groove/track that runs along the frame of the lightbox.

PROFILES FOR LIGHT BOXES

In our assortment we offer a wide range of profiles for building light boxes to manufacture the ideal solution for you. Single sided, double sided and in many different depths.
