# Mounting of fabric banner

Mount the fabric banner onto the frame in the same order as shown on the illustration.

Start with the four corners and press the banner into place. Then press in the four middle sections. This ensures an even tension across the entire banner.

How to correctly insert the PVC profile of the fabric banner

YES   NO

Fold the fabric around the PVC profile and press it into the channel of the frame.

Tip: You can tighten a loose banner by folding the fabric double around the PVC profile.

The PVC profile **MUST NOT** face outward.
